***Potreba živín:**

Zhruba sa rozlišuje medzi silnou, strednou a slabou potrebou – ide o rozdelenie, podľa ktorého sa zistí, koľko dusíka rastlina potrebuje pre zdravý rast. Ideálna je každoročná výsadba za sebou.

Upozornenie:

Individuálne najlepšie obdobie výsevu, sadenia a zberu sa môžu líšiť podľa regiónu, klímy a odrôd od období tu uvedených.
